

## **Experiment 2.2**

Student Name: Utkarsh Joshi UID: 21BCS9158

Branch: CSE Section/Group: ST-802-A

Semester: 5th Date of Performance: 27/09/23
Subject Name: AIML Subject Code: 21CSH\_316

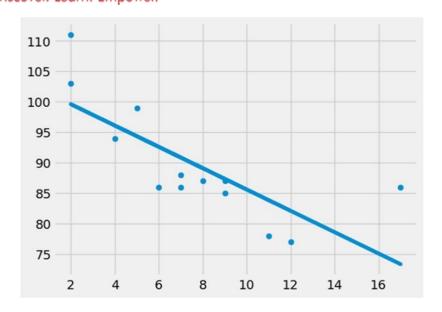

1. Aim: Implementing Linear Regression and Logistic Regression Models.

**2. Objective:** The objective of this experiment is to implement Linear Regression and Logistic Regression Models.

## 3. Program and output:

## A) Linear Regression

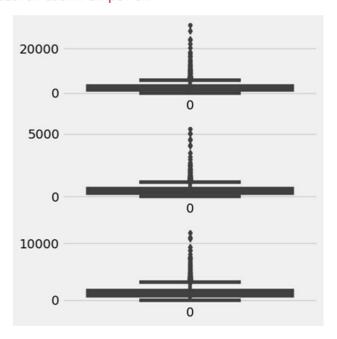

```
import matplotlib.pyplot as plt from scipy import stats x = [5,7,8,7,2,17,2,9,4,11,12,9,6] y = [99,86,87,88,111,86,103,87,94,78,77,85,86] slope, intercept, r, p, std_err = stats.linregress(x, y) def myfunc(x): return slope * x + intercept mymodel = list(map(myfunc, x)) plt.scatter(x, y) plt.plot(x, mymodel) plt.show()
```

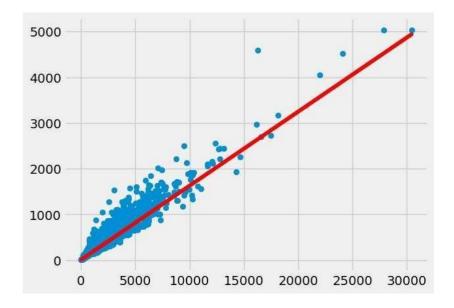

```
housing_median_age 0.0
total_rooms 0.0
total_bedrooms 0.0
population 0.0
households 0.0
median_income 0.0
median_house_value 0.0
dtype: float64
fig, axs = plt.subplots(3, figsize = (5,5))
```

advertising.isnull().sum()\*100/advertising.shape[0] longitude 0.0 latitude

plt1 = sns.boxplot(advertising['total\_rooms'], ax = axs[0])
plt2 = sns.boxplot(advertising['total\_bedrooms'], ax = axs[1]) plt3 = sns.boxplot(advertising['population'], ax = axs[2]) plt.tight layout()

plt.scatter(X\_train, y\_train) plt.plot(X\_train, 6.948 + 0.162\*X\_train, 'r') plt.show()

B) Logistic Regression import numpy as np import pandas as pd # Data Visualisation import matplotlib.pyplot as plt import seaborn as sns advertising=pd.DataFrame(pd.read\_csv("/content/sample\_data/california\_hous i ng\_test.csv"))
advertising.head()

longitude latitude housing\_median\_age total\_rooms total\_bedrooms population households median\_income median\_house\_value

## **Learning Outcomes:**

- This experiment demonstrates us how to use a dataset or extract datasets from Kaggle.□
- Perform various regression on them like Logistics and Linear Regression.
- How to implement Linear Regression on data set and make predictions.

• How to implement Logistic Regression on data set and make predictions□
